

Search & Recovery: A Retrieval Artist Universe Novel: Book Four of the Anniversary Day Saga (Retrieval Artist series 11)

Amid the ruin, heroes emerge from the unlikely places...The Anniversary Day bombings devastated the Moon, killing thousands. While survivors search for missing loved ones and the rich and powerful set plans in motion to capitalize on the Moon's misfortune, one ruthless man vows to uncover those responsible for the attacks on the Moon. Luc Deshin, the most feared man in Armstrong, knows all too well the bombings could have killed the wife and son he loves more than life itself. To protect his family, Deshin immerses himself in a criminal network he fought long and hard to leave behind. Deshin doesn't scare easily, but what he finds in the black market underbelly of the Moon will chill him to the bone. Fans of Rusch's Retrieval Artist universe will enjoy the expansion of the Anniversary Day story, with new characters providing more perspectives on its signature events, while newcomers will get a good introduction to the series. Publishers Weekly on A Murder of Clones Rusch offers up a well-told mystery with interesting characters and a complex, riveting storyline that includes a healthy dose of suspense, all building toward an ending that may not be what it appears. RT Book Reviews on Blowback Anniversary Day is an edge-of-the-seat thriller that will keep you turning pages late into the night and it's also really good science fiction.
