

Soul to Soul: Communications from the Heart

With *The Seat of the Soul*, Gary Zukav emerged as one of the most important leaders in the world of spiritual development, and with the support of Oprah, who considers it the single most powerful book she has ever read (except for the Bible), it went on to sell upwards of 2.5 million copies. All of Zukav's subsequent titles, many of them best-sellers in their own right, were mainly explanations and practical applications of the basic concepts and somewhat abstract terminology of *The Seat of the Soul*. *Soul to Soul* represents a giant step forward in the evolution of his work, less concerned with theoretical constructs than with responding to important questions about life and the human spirit. Told in a beautifully simple, even poetic style, *Soul to Soul* is divided into two sections: Part One, *Soul Subjects*, consists of over 60 brief, enormously compelling, and often profoundly wise stories of people's lives that lead us to examine our own experiences in new and perhaps life-changing ways. They are not at all abstract or laden with heavy terminology, but rather embody what might best be described as felt experience: specific insights and wisdom growing out of fresh life encounters that are truly meaningful to us. Part Two, *Soul Questions*, introduces an innovative format, different from anything Zukav has done before. Combining profound psychological insight and deep spirituality, *Soul to Soul* provides fascinating answers to well over 100 questions that will be of enduring value to listeners. More than that, what has been accomplished bears repeating, for it is monumental: nothing less than to respond to many of the most fundamental questions about life that anyone could ask with answers that have universal worth. *Soul to Soul* is truly empowering and will help listeners to become the people they want to be.
