

Star Crusades Nexus: The Second Trilogy

Star Crusades Nexus is an epic military science fiction series that chronicles humanity's first steps into the Orion Nebula, and the great conflict that awaits them. The greatest warriors, engineers and scientists of the age blaze a path to the worlds of TKaran and Helios, far away from the human worlds of the Alliance. There they will meet alien races and become embroiled in intergalactic politics and conflict. Characters such as Spartan, the illegal pitfighter turned war hero of the Great Uprising, Teresa Morato, senior commander in the Marine Corps and a deadly warrior and Gun, the synthetic warrior giant turned General, a figure with a burning desire to hunt time and destroy the enemies of his tortured people. All of them will play their part in shaping humanity's future in the galaxy. This compendium edition contains the full text of books four to six and includes the Great Betrayal, Prophecy of Fire and Call to Arms. The Great Betrayal The ancient prophecy spreads to the colonies of the Alliance and ignites a public debate on the rumor of the coming comet. The origins of the rumor revolve around the dark days of the last war fought on Helios. The prophecy speaks of the return of the Great Enemy that will be signaled by the coming of a burning star, when its beasts and machines will devour entire worlds. Although many see it as no more than a fleeting superstition, the Alliance Senate decides that pre-emptive measures must be taken to prepare for the return of the Enemy. Prophecy of Fire The fragile Centauri-Helion Alliance is being tested to the limits as Alliance ground forces under the command of General Daniels deploy on Eos, a strategically placed moon. Three complete regiments, including whole units of Jotnar and Vanguards assist Helion government troops against Dictator Lyssks insurgents and their violent mercenaries. Jack Morato and his comrades are thrown

into the bloody insurrection that is filled with suicide bombings, improvised explosives and roadside ambushes. The weeks of battle has cost both sides many lives, but it is a battle that must be fought if the worlds of Helios are to be ready. Call to Arms The Great Biomech War is now inevitable and the citizens of the Alliance ready themselves for what is to come. Ships and soldiers from a hundred worlds set their eyes on Helios, some looking to defend it and others making their plans to bring about its destruction. As each day passes, the defenders around Helios grow, and each day brings the prophetic comet closer to them. The remaining Biomechs have their own plans, and worlds as far away as Earth now feel their wrath.
