

## Stella X - Biosphere

For many centuries an area of the cosmos known as the Khordovar Circle has been a place of legend. Tales tell of spacecraft mysteriously vanishing, never to be seen again. Then one day the alien traveller Stella and her human sidekicks stumble across a mysterious unknown world at the very centre of this forbidden part of the galaxy. Before long they are finding ravenous beasts, stranded shipwrecked crewmen and savage tribes. Can they reach a hidden control complex at the centre of the wilderness or will they become part of an ancient experiment?
