

Ghosts of Empire (Book 4 of The Empire of Bones Saga)

When on deadly ground, fight! Jared and Kelsey won the battle for Harrisons World, but the enemy holds thousands of Fleet personnel prisoner. They must get their people back without revealing who they really are or the sentient AIs will eradicate the new Terran Empire. Coordinator Olivia West sees an opportunity to free her people from Harrisons World now that the AI that had crushed them under its heel was no more. To do that, she must outwit the Fleet officers holding the keys to her planets destruction. But foes striking from the shadows will go to any length to derail their plans. Can the three of them settle their differences before the ghosts of the Old Empire return to haunt them all?
