

## Century of the Soldier (The Monarchies of God)

A re-issue of a classic fantasy series, back in print for the first time in almost 10 years. By the mid sixth century of Ramusian reckoning the great struggle is approaching its climax. For the victor there will be supremacy; for the vanquished, cultural annihilation. Fighting that war, Corfe of Torunna will find that court intrigue can be as murderous as any martial foe. The monks Albrec and Avila will explode a bombshell of secret knowledge which will change the continent irrevocably. And Richard Hawkwood will return with the discovery of a New World. The sixth century is the crucible of history. The century of the soldier.
