

The Heretic (The General)

David Drake's legendary Raj Whitehall/The General series, returns! In a world of muskets, bows and arrows, and reptile-riding nomads, a young warrior fights against an all-controlling computer devoted to stasis. ABEL DASHIAN'S WORLD DOESN'T NEED A HERO

Duisberg is one of thousands of planets plunged into darkness and chaos by the collapse of the galactic republic, but where other worlds have begun to rebuild a star-travelling culture, Duisberg remains in an uneasy balance between mud-brick civilization and bloodthirsty barbarism. The people of Duisberg have a god: Zentrum, a supercomputer from the ancient past. Zentrum has decided to avoid another collapse by preventing civilization from rising from where it is. And because even a supercomputer and the powerful religion which it founded cannot block all progress, Zentrum has another tool: every few centuries the barbarians sweep in from the desert, slaughtering the educated classes and cowering the peasants back into submission. These are the Blood Winds, and the Blood Winds are about to blow again. This time, however, there's a difference: Abel Dashian, son of a military officer, has received into his mind the spirit of Raj Whitehall, the most successful general in the history of the planet Bellevue--and of Center, the supercomputer which enabled Raj to shatter his planet's barbarians and permit the return of civilization. One hero can't stop the tide of barbarians unless he has his own culture supporting him. To save Duisberg, Abel must break the power of Zentrum. With the help of Raj and Center, Abel Dashian must become ... THE HERETIC!

About The Heretic: More than once, I envied Abel's gift. If you count having the voice of a computer and the recreation of a famous general in your head as a gift...An interesting relationship that elevates [the novel] to something unique...I

loved the battles and I found Abel to be an engaging character. I adored Golitsin, his priest friend. SF Crowsnest About the Raj Whitehall series: [T]old with knowledge of military tactics and hardware, and vividly described action... devotees of military SF should enjoy themselves. Publishers Weekly [A] thoroughly engrossing military sf series . . . superb battle scenes, ingenious weaponry and tactics, homages to Kipling, and many other goodies. High fun. Booklist About David Drake: [P]rose as cold and hard as the metal alloy of a tank rivals Crane and Remarque Chicago Sun-Times Drake couldn't write a bad action scene at gunpoint. Booklist About Tony Daniel: [D]azzling stuff. New York Times Book Review [His work] teems with vivid characters and surprising action. Publishers Weekly (starred review) Daniel proves that the Golden Age of science fiction is right here and now. Greg Bear [A] large cast of utterly graspable humans, mostly military and political folks, of all ranks and capacities and temperments. Daniel has a keen eye for the kinds of in extremis thinking and behavior that such a wartime situation would engender... Following in the footsteps of Poul Anderson and Greg Bear...
