

The Jagged Orbit

One of the most important science fiction authors. Brunner held a mirror up to reflect our foibles because he wanted to save us from ourselves.--SF SiteFor each generation, there is a writer meant to bend the rules of what we know. Hugo Award winner (Best Novel, *STAND ON ZANZIBAR*) and British science fiction master John Brunner remains one of the most influential and respected authors of all time, and now E-Reads is pleased to re-introduce many of his classic works. For readers familiar with his vision, its a chance to re-examine his thoughtful worlds and words, while for new readers, Brunners work proves itself the very definition of timeless. In *THE JAGGED ORBIT*, Brunner, writing at the peak of form that allowed him to create *STAND ON ZANZIBAR*, takes a long, hard, disturbing, hilarious look at the near, and not-so-distant, future and the catastrophic changes that widespread and rampant drug abuse, uncontrolled violence, high-level corruption in government, inhumane treatment of the too-readily defined insane and the accompanying collapse of the social order are wreaking on the world we recognize and turning it into a reality we must fear and hope to avoid. Brunner tells a spine-chilling tale and makes where the world could possibly go all too believable and real for our comfort.
