

HUMANITIES NEW PROTECTOR: The Adventures of Lilianda Book 2

The Wecominis have returned in search of their precious hecoldo and once again the vampi and vampires are called upon to defend the Earth. But, the Wecominis have learned from their previous encounter with the vampi and have developed a drug that renders them unconscious, something that has never happened in the millennia the vampi have been protecting the mortals. Now, with the help of a reformed drug-addict and thief along with the wizard Merlin, whom Lilianda hasn't seen since the days of King Arthur, the vampi must discover a way to disable not only the spaceship that landed on Earth, but those that are in orbit high above, waiting for the order to fire lethal rays down and take their mineral by force.
