

The Seekers: The Stuff of Stars (Book 2)

But what are we without dreams? Book 2 of The Seekers series continues the story started in the critically-acclaimed, multiple award-winning The Children of Darkness. [Dystopian, Science Fiction, Post-Apocalyptic, Religion] Against all odds, Orah and Nathaniel have found the keep and revealed the truth about the darkness, initiating what they hoped would be a new age of enlightenment. But the people were more set in their ways than anticipated, and a faction of vicars whispered in their ears, urging a return to traditional ways. Desperate to keep their movement alive, Orah and Nathaniel cross the ocean to seek the living descendants of the keepmasters kin. Those they find on the distant shore are both more and less advanced than expected. The seekers become caught between the two sides, and face the challenge of bringing them together to make a better world. The prize: a chance to bring home miracles and a more promising future for their people. But if they fail this time, they risk not a stoning but losing themselves in the twilight of a never-ending dream.
