

Malt Whisky File

For all those who appreciate fine spirits, The Malt Whisky File is the most complete reference available to the whiskies of the world, including those from the distilleries of New Zealand, Ireland, Japan, and, of course, Scotland. Offering a label-by-label analysis of each whisky, John Lamond and Robin Tucek offer helpful tasting notes, a history of each brand, and a rating based upon a proprietary scale of sweetness, peatiness, and availability (based on each label's total production).
