

## The Nightmare Factory (The Dream Engine Book 2)

After breaching the Fog and finding the ship beyond, Eila Doyle finds herself confronting a truth: her land of Alterra, contrary to what shes been taught, isnt alone -- and Parliament, it seems, has been keeping yet another horrible secret. The band of rebels at Alterras borders is presided over by Admiral Wellington: a man who needs Eilas reality-bending talents but requires that she turn traitor in order to provide them. Wellingtons arguments are convincing, pointing to atrocities Alterra has committed and the army of dragons and demons being built by the all-too-real Dark King but is Wellington all he seems, or does he have other motives? Meanwhile Eilas friend Cora, trapped between the same forces, wages a private war -- playing both sides between Alterra and its foes, old friends whove turned enemy and new allies. As her old friend suffers, Eila makes friends among the warriors of the Flock: the massive Obsidian, who wields a club. Lithe Abbie, with a score to settle. And quiet Eve, who has her own agenda. But as the big change nears, Eila and Cora both face a dilemma: are the newcomers here to liberate Alterra or to destroy it? This second book in the young adult dark fantasy Dream Engine series by masters of story Platt & Truant (authors of the bestselling Invasion series) cracks Alterras closed box open, spilling a whole new world of monsters and angels, spies and turncoats. It will leave you breathless, doubting reality all over again.
