Its having access to drinkable water! Without water a person cant live more than three days. The second most important thing is food! Men have been known to live more than a month without food. But theres absolutely no need for any person to be deprived of something to eat. Nature is and always has been a good and reliable provider. Everyone should know how to properly use her. Learn to live off the land. It really isnt that difficult. This one-of-a-kind edible plant survival handbook tells you all you need to know.
