Once bitten, the virus spreads throughout the human body. It shuts down organs, kills nerve impulses and even reprograms the way we think. The virus becomes us. There seems to be no hope. The survivors head onto the land to get the supplies they need for their long journey ahead, and meet a patrol of soldiers from the nearby Burgh Castle compound. Almost back to their boat, the survivors are set upon by an endless wave of Lurchers. Trapped and held by the creatures, the survivors fear it is the end. But then one Lurcher steps from amongst the others, and the survivors realize their ordeal has only just begun. From the writer who brought you the Z-Minus series and The Swiss Family RobinZOM comes this powerful first part in a new zombie pentalogy. **BLOOD MEMORY**. Let the adventure begin.

Interview with the Author Q So, what makes the Blood Memory series so special? A To me, zombies aren't your everyday monsters. They represent the kind of people we all run the risk of turning into in our everyday lives; the kind of person who gets stuck in the same old routine. I know I used to be a zombie! I've always been a big fan of horror novels, particularly zombie apocalypse books, TV shows and movies. We've seen an explosion in fantastic zombie culture in recent years like the amazing show The Walking Dead. These post-apocalyptic worlds force people to react in a way totally alien to the modern world we live in now. It's like watching modern humans return to our origins, back to our primitive state. Q - What made you decide to give the first book away free? A I wanted to gift a free zombie book to everyone who enjoys the horror genre. I'm a

new writer and its great knowing that someone out there is reading and enjoying my novel. There's no greater feeling than that except perhaps for a good scare! By the way, there's also a special free gift at the end of the free book for zombie fans :) Q - Can readers get the whole series in one go? A - Of course. I've bundled all the episodes up into one complete season at a hugely discounted rate here: <http://www.amazon.com/dp/B00MF4JBR> W - I have also written many other zombie books. Readers can check them out at my author profile on Amazon. Thanks for reading!
