

The Throne of Bloodstone (Advanced Dungeons & Dragons: Forgotten Realms Adventure, No. H4)

As the rulers of Bloodstone Pass, it is up to you to find and destroy the source of Vaasas power. All you have to do is journey to the Abyss, confront the mightiest demon of all, steal the Wand of Orcus, and take it to the Seven Heavens to be destroyed. The Throne of Bloodstone is the fourth and final installment in a series of modules specially designed for high-level characters. While it is not necessary to have played any of the three previous modules, The Throne of Bloodstone is the climax of an epic struggle for a kingdom against the forces of darkest evil. Recommended for characters of levels 18-100, The Throne of Bloodstone is the highest-level adventure ever published by TSR!
