

The Ultimate Green Energy (Tales from the Repository of Imagination Book 2)

From astonishing worlds of fantasy, aliens, and magic, the Repository of Imagination has been collecting tales since the dawn of time. Selected story spheres from the Repository are now being translated into human languages for the first time. Open your mind to the splendor of other worlds. In *The Ultimate Green Energy* four tales have been selected, suitable for young humans aged 11-16 years, and for older readers whose sense of wonder is still functional. Translated from the original non-human sources and annotated by senior branch Repositarian, Crustias Scattermush, with assistance from human author, Tim C. Taylor.
