

The Water Gardener

A reference for all water gardeners, whether amateur or professional. From building a wall fountain or installing a pond to replanting a stream, it features technical advice and drawings, steering the reader around the pitfalls. Areas covered include: designing a full range of water features, including fountains, ponds, bog gardens, streams and leisure pools; preparing the site, whether flat, sloping, wet or dry, on sand or on rock; construction methods and materials; special effects with lighting, stepping stones and islands; safety and maintenance measures; stocking a pond with fish and attracting wildlife; planting techniques; and a full catalogue of floating, emergent and marginal plants, marsh and water-loving plants, as well as waterside trees and shrubs.
