

Trace of Survival, Vol. 3

Isaiah has spent his adult life serving his country. Now that he's toward the end of his middle years his country has fallen into collapse. He has spent years preparing for this collapse. He and his friend Reggie have gotten their children out of their homes in the cities and moved them to the homesteads that they have established near the Natchez Trace southwest of Nashville, But it isn't an easy task. They have to content with a fuel shortage, food shortages, terrorists, no electricity, thugs and a government out of control. Now they are working to build a future for their families and good people they encounter along the way. They lose friends and family but they fight on. Survival is what they must do and survive they will. They will fight to accomplish what must be done. They have spent years preparing but will their preps be enough? Besides their combat and survival skills, they have their Christian faith and strong conservative values as a foundation to support them.
