

Voyages: A Science Fiction Collection

Explore other times and other worlds with the four novelette-length stories of VOYAGES: A factory worker who delights in the escape provided by his colony's theater discovers that some members of the audience don't ever come back. A teenager waiting for his parents to finish touring a new house finds himself swept up in a renegade scientist's time travel experiment - one that might not allow either of them to return home. A small-time criminal discovers some painful truths about himself and the world around him as a comet speeds toward Earth. And...

An android who's always yearned to be human is talked into participating in a life-threatening game and discovers that being human might not be so valuable after all.
