

## Whores: not intended to be a factual account of the gender war

The gender wars over. And weve all lost.

In the near future, womens rights are eroding, and those who refuse their newly proscribed societal role are hunted as gender criminals, by the authorities when theyre lucky, and by militias when theyre not. This harrowing dystopia is seen through the eyes of a woman cast into a resistance group by circumstance, and a newly minted gender crimes detective tasked with bringing them to justice, as he grapples with whether or not that word still has meaning. Whores contains adult language, graphic content, and mature themes.
