

Wormwood Dawn: Collection One: Episodes I-IV

This collection contains the first four episodes of Wormwood Dawn, one of the most disturbing and unique looks at the apocalypse through the eyes of the not-so-heroic. Dan was a less-than-average loser on the brink of a meltdown. His rampant alcoholism and drug addiction have rendered him worthless and without any direction or ambition. There was just nothing worth living for anymore. Then, one morning, a mysterious orange fog descends from the sky after Earth passes through the tail of a comet. People everywhere begin dying, and those that survive either lock themselves in their homes, or become stark raving lunatics. Having spent his life on the fringe of normalcy, Dan must gather his wits and learn to survive this unknown plague that has toppled the world around him. Only by using everything at his disposal--along with his lack of empathy--can Dan avoid the horrors that have taken over the world. Together with Drew, a somewhat close friend from a neighboring town, Dan begins to discover the difficulties of surviving the new world. Not only must they face the horrors of raging, blood-thirsty infected, but those survivors who intend to take over. To make things worse, there are those among the infected that are far more terrifying than simple flesh-eating, mindless automatons. There are some that have retained their former minds--those that were not so friendly to begin with. Taking place in South Central Indiana, Wormwood Dawn will take you on a journey through territories and locations familiar to residents of Bloomington, Martinsville, and their surrounding areas.
